

I am writing to plead with you not to allow LPFM to replace K-Love FM Translator service. K-Love fills a huge void in our community for family friendly programming that is so desperately needed. It is so refreshing to here positive and encouraging words on the radio where other stations may only carry negative and, at times, obscene listening, unfit for human ears but especially children's ears. We need so much to hear programs that reflect values and that are uplifting. It would be shameful not to have the freedom to choose such quality programming as K-Love radio.

Thank you, Lil Conley
